

OSAGE CREEK

PLACE of HOPE

Oneness in the Real World

This large group seminar is for married and engaged couples of all ages and stages of life. It typically takes place on a Friday evening and Saturday at a church or other venue that seats more than 12 people.

The purpose is to assist couples in gaining a much deeper understanding of what oneness really is, give them common sense skills for achieving it, strategies for protecting it, and the specific steps to take to heal it when it's been injured.

Living as Children of the Light

This weekend growth seminar is focused on relationship skills for personal maturity and church unity. It was specifically designed for church groups, leadership, staff and various small group ministries.

Because relationships among believers can be challenging, we want to assist our brothers and sisters in Christ to understand what living in grace with each

other really looks like, and put into practice the skills necessary to achieve that.

This seminar can be scheduled as a one-day Saturday seminar or a Friday evening/Saturday seminar.

Flourishing Journey

This seminar was specifically designed for Christian women. It is focused on effective life skills and authentic personal growth. It typically takes place on a Friday evening and Saturday at a church or other venue that seats more than 12 people.

The purpose of the seminar is to assist women in gaining clarity about what is holding them back from blossoming into the fullness of who they are meant to be and put into practice the skills that can help them flourish.

All Osage Creek seminars take place at the location of your choice. Seminars are typically scheduled for groups of 12 or more.
